Home Brew Ban Will Ruin New Industries

MILWAUKEE, Nov. 16.—Large brewing interests, which have been manufacturing syrups from which home brew could be made today declared that if the recent ruling of John F. Kerner, national prohibition commissioner, making the sale of these extracts illegal in enforced, they face a serious loss.

After the 18th amendment went into effect the majority of the brewers decided that the manufacture of near beer would be less profitable than making malt syrup, a combination of malt and corn in the proportion of 40 and 60, which could be used for making home brew.

Approximately 800,000 pounds are said to be used in Milwaukee, kee for the manufacture of home brew mixtures. Breweries have installed special machinery for the manufacture of malt syrup, because of the increasing demand.

"YOUR MEDICINE IS O. K." Mrs. Chas. Rule, New Diggins, Wis., writes: "Your medicine is O. K. I think Foley's Honey and Tar is the best for coughs. I think your medicine is all you say it is. I know it would never be better. You may use my name." Foley's Honey and Tar acts quickly, checks coughs, colds and croup, cuts the phlegm, opens air passages and allays irritation. It stops sleep-disturbing coughing at night. Children like it. Contains no opiates. Sold everywhere.—Adv.

UTAH PERSONAL HOLDINGS LISTED

Property Assessed in This
State Amounts to
\$172,000,000

Personal property assessed in Utah this year totals \$172,124,591, according to a tabulation compiled in the biennial report of Joseph E. Rife, state auditor, from returns made from county auditors. Last year the valuation totaled \$163,476,422. There was a falling off of the valuation placed on livestock from \$42,617,932 in 1919 to \$24,215,799 in 1920. The valuation of other forms of personal property shows a great increase.

TOTAL OF ANIMALS

A compilation of totals from the report, compared with corresponding totals of last year, shows reductions in the number of every kind of farm animal assessed, but still greater reductions in the valuations placed on these animals. This is made in the following table:

	1920	1919
Horses—		
Number	93,824	100,795
Valuation	\$ 2,191,145	\$ 6,134,534
Cattle—		
Number	375,946	417,997
Valuation	\$13,697,244	\$17,662,829
Sheep and goats—		
Number	1,779,175	1,792,646
Valuation	\$14,934,909	\$18,374,823
Pigs—		
Number	30,457	45,968
Valuation	\$ 272,411	\$ 445,746

Total valuation, livestock, \$24,215,799; \$42,617,932. Among the counties the tabulation compiled in the state auditor's office shows that Utah county leads in the value of its horses, which are placed at \$2,041,940. Utah county, however, has only 7428 horses assessed as compared with 7928 horses in Boxelder county, valued at \$479,925, and 7847 horses in Cache county, valued at \$442,885.

Utah county also takes the lead in the cattle industry in the state, with 29,151 cattle, assessed at \$1,026,190. Sevier county has 25,512, assessed at \$961,786.

In sheep and goats Millard county takes the lead, with 308,065 sheep, assessed at \$2,542,000, and Tropic county is next, with 192,193 sheep, assessed at \$1,768,738.

MOST SWINE
Davis county reports the most swine assessed, 3266, valued at \$31,900, while Millard is next with 2898 swine, assessed at \$21,840.

In the total value of livestock Millard county is easily in the lead, with \$2,171,399. Tropic is second with \$2,125,492, and Boxelder third, with \$2,010,440. All other counties have less than \$2,000,000 as the assessed value of their livestock for this year.

Salts Lake county has only approximately \$125,000,000 personal property other than livestock assessed in the state, however. Salt Lake county has a total of \$12,251,196. This is almost \$6,000,000 more this year than last for Salt Lake's total. Other leading counties are Weber, with \$13,925,225; Cache, with \$13,572,029; and Utah, with \$12,123,405.

Various classes of property go to make up the item of "personal property other than livestock." The total assessed valuation of the banks of the state is \$14,451,941, of which \$6,952,228 is in Salt Lake county, \$1,950,160 in Weber county, \$1,747,730 in Cache county and \$1,311,250 in Utah county.

No valuations for banks are reported this year from Daguerre, Millard, Morgan, Platte or Wasatch, although Millard and Morgan both reported banks last year. It is probable that the total has been placed elsewhere by error this year.

WEAVERS' VALUE
The total assessed valuation of merchandise and trade fixtures in Utah this year is \$62,455,967. Salt Lake has \$24,577,595 of this; Weber \$7,299,422; Cache \$4,221,275; and Utah \$3,950,412.

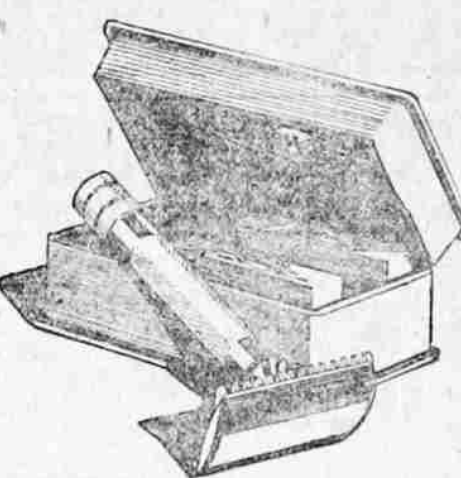

The county assessors have found \$29,356,194 worth of machinery, tools, implements and supplies this year, of which \$6,957,250 is in Salt Lake county, \$2,450,685 in Weber, \$2,309,425 in Cache and \$407,325 in Utah.

There is assessed under the heading of "money, solvent credits, judgments, etc.," \$7,935,933 in the state, of which \$1,208,953 is in this county, \$1,114,801 in Weber, \$150,230 in Cache and \$90,372 in Utah county. It is noted that little Daguerre county, with a total assessed valuation of about \$750,000, reports \$151,906 of it in this class of property, exceeding both Cache, Utah and many other counties. In fact, the wealthy Utah county, is exceeded not only by the counties already named but also by Boxelder, Carbon, Iron, Juab, Millard, Piute, San Juan and Sanpete in the assessed valuation of these items.

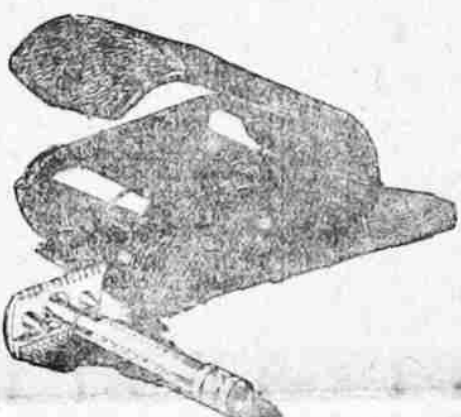

There is a heading for "personal property not otherwise assessed" which totals for the state \$22,712,791. Of this \$12,984,070 is in Salt Lake county; Weber county has under this heading

New Wage Scale for Civil Service Proposed

BOSTON, Nov. 16.—A bill to reclassify the wage scale of all civil service employees will be presented to congress next month by Congressman Frederick R. Lehlbach of New Jersey, chairman of the house committee on civil service reform, according to an announcement by William J. Sleep, vice president of the National Federation of Federal Employees.

The Lehlbach bill, 37, Sleep said, would affect all civil service employees except those in the postoffice department.

It is designed as a substitute for the measure submitted at the last session of congress by the joint congressional commission on reclassification of the civil service, and which congress restricted to federal employees in the District of Columbia.

**New York's Policemen
Become Auto Experts**

NEW YORK, Nov. 16.—New York City's 14,000 policemen became automobile experts all of a sudden Monday. Action on orders received Saturday

from Commissioner Knight who has planned a three week's campaign to reduce the number of automobile accidents, the police halted thousands of automobiles and examined them for mechanical defects. If there was anything wrong enough to increase the possibility of accidents, the chauffeurs were directed to repair shops. The police took free rides to make sure their orders would be obeyed.

It was a most fretful day for automobilists. Business barons speeding to their desks were halted. They waited impatiently while their chauffeurs smiled at the patrolmen's meticulous examination of the engine and allied pieces of mechanism. Taxicab drivers took it as a joke, though grieving over loss of time that would neither return nor bring returns.

Finishing their mechanical inspections, the police handed every driver a book containing regulations, bearing on its cover the Biblical command-

ment "Thou Shalt Not Kill." During the day a dozen persons were injured and a baby was killed by automobiles.

Schemes For Financing China Sent to Peking

NEW YORK, Nov. 16.—Definite proposals for the financial rehabilitation of China, the outgrowth of recent discussions here among representatives of large financial firms of Great Britain, France, Japan and the United States have been sent to Peking for consideration by the Chinese government. It was learned here today that Frederick W. Stevens, representative of the American group of bankers, is en route to Peking and is expected to negotiate personally with the Chinese government regarding the financial suggestions.
